What you'll be doing

The Design & Solutions team is looking for a Software Engineer in Test with experience in mobile applications, to join the product team that works closely with the business in delivering and maintaining software for our external customers.

It is an agile delivery environment with momentum from some recent big successes, with lots of exciting new projects also in the pipeline.

Key aspects of working in an agile team at MO

- Focus on delivering working software
- Blending user (customer) feedback and best practice to evolve what we deliver
- Continuously inspect and adapt how we deliver software
- Utilise great testing principles, TDD & automation
- A “build to run mindset”, ensuring the software / systems we build are easy to support and operate
- Attitude of improving life for other testers & engineers so the next person will find things a little bit easier
- The team is greater than the sum of its parts
- Embrace AI to maximise your effectiveness

As a Software Engineer in Test (SET), you will be responsible for developing and maintaining automated test scripts for mobile using industry-standard testing tools and frameworks to support delivery. These scripts will validate software functionality, performance, and security.

Ensuring the observability and reliability of the product is another key responsibility. You will utilize tools like Dynatrace, Splunk, and OpsGenie to achieve this. This role requires the SET to become the custodian of all things quality for their team.

Motability Operations

About you

You will have a background in wider quality/testing activity. You will possess automation skills in both front and back-end testing. The successful candidate will have a strong desire to progress their team and themselves by establishing new skills and ways of working.

- You have a proven interest in delivering and maintaining automation tests
- You can take the lead and show enthusiasm for tackling challenges
- You have a passion for solving technical challenges
- You can demonstrate strategic thinking and planning
- You will bring your strong analytical skills and technical aptitude to the table
- You enjoy keeping up with the latest technologies and trends in the test automation space and in the wider software development industry
- You possess excellent problem-solving skills and can think critically
- You have effective communication skills and can manage a diverse range of stakeholders
- You have strong organisational skills and can juggle multiple test activities simultaneously with a focus on efficiency and effectiveness
- You exercise both influencing and negotiating skills in a personable and professional manner; collaboration is at the heart of what we do
- You are passionate about developing yourself and your peers

Minimum criteria

- Considerable experience of automated testing including mobile apps
- In-depth knowledge of testing principles, methodologies and best practices
- Practical knowledge of React Native / React and Typescript
- Knowledge of API testing tools, e.g. Postman and a desire to improve this.
- Ability to analyse requirements, user stories, and acceptance criteria to derive test scenarios and test cases
- Excellent stakeholder management and collaboration skills
- Excellent communication, interpersonal, presentation and facilitation skills
- Excellent judgement, decision-making & influencing skills
- Innovative and solution-focused with strong problem-solving and analytical skills
- Experience of working alongside delivery partner leads and third parties

Who you'll be working with

You will be working within a Product Team and reporting to an Engineering Team Lead.

You act as a custodian of quality for your product and lead the automation vision for it. You will be liaising with the other SETs, Engineers, Product Owners, the Automation team and wider stakeholders. Always balancing product initiatives and continuous improvement in your domain.

Motability Operations

We're Motability Operations

About us

We're the company behind the Motability Scheme. We exist to deliver smart, sustainable solutions that improve our customers' mobility in a fast-changing world. We're the UK's largest car leasing company and we help over 860,000 people get on the road.

We employ over 1800 people, across London, Bristol, Edinburgh, and Coalville. We know our people are key to our success, so we aim to create an environment that allows our employees to flourish. We look for highly motivated people with a combination of commercial sense and real enthusiasm to meet our customers' needs.

What we do

We lease a wide range of tailored mobility solutions to people who receive one of the Government's qualifying mobility allowances. Our customers choose a car, Wheelchair Accessible Vehicle (WAV), scooter or powered wheelchair that best suits their needs. We take care of their insurance, breakdown, servicing and more, as part of our worry-free package.

At the end of the lease, our customers can exchange their vehicle for a brand-new model. Each year we sell and move around 200,000 cars. This makes us the largest supplier of single-source vehicles back into the used car market.

The Scheme has been providing affordable, worry-free motoring for over 45 years. We pride ourselves on delivering outstanding customer service, with an independent customer satisfaction rating of 9.6 out of 10.

How we work

We work in a hybrid way. That means remotely for up to two days each week and in our great office spaces the rest of the time. This gives us a good work/life balance and lets us collaborate and deliver for our customers. [Visit our website](#) to find out more.

We do our best to accommodate part-time and flexible working requests, where possible, to build on our culture of trust, empowerment, and flexibility.

Our beliefs and values

We believe in building a diverse workforce, where our people are empowered to attend work as their true selves. We encourage people from all backgrounds to apply.

We want to sustain a nurturing culture. And our people to be rewarded equally, regardless of race, national or ethnic origin, sexual orientation, age, disability, or gender.

Our values are at the heart of everything we do:

- We believe no one should be left behind à We find solutions
- We believe we must take the lead à We drive change
- We believe everything starts with the customer à We care
